Subject: hello

My cordial greetings brother Agee,

I wait and I trust our God that to the receipt of this mail, enjoy you and your wife of good health, my family and I thanks to God are well.

I write you this mail because always to the brother Paul every two months I sent him a work report so that he could inform to the Churches that helped him, and with you I am making the same thing.

I'm has returned of Oriente for three days and the work goes well, I will begin with Tacajo, of the brothers that we baptize 10 they are congregating the rest single visit sporadically the Church but **Alfredo** is working in that, there I imparted a conference on you Mature it and Spiritual growth, the attendance belonged to 42 brothers, I think that the Church there continued growing, Alfredo sends you greetings on behalf of his family and the Church.

In Mije Hueco two people have baptized and restored 5 brothers that had strayed of the truth, continuous Raimé working arduously, there I had a small study in the morning on the offerings because the brother Raimé requested me that I talked about that topic, we visit about 30 brothers and we share with them in their homes, as you knows people there it is very humble but very consecrated.

Riover and Miguel they are working there in Tasajera that is to some 8 kms of Mije Hueco, the Church it is new but it continues growing, three new brothers were baptized, in Tasajera they meet in a small very humble house but the brothers have great heart, they are very affectionate and they have great knowledge of the Bible in spite of being a Young Church they have good domain of the word it is sign that the brother Riover is making a good work. This town is very small it should have about 500 habitants and it is very distant of the city but that doesn't prevent them to flourish and to glow.

Yosleidis continues working in Corralillo, there the alone congregation has one year of established, the brother has baptized two people and they continue congregating between 6 and 8 people, it is a very small rural area in the field but the brothers are also very humble and consecrated, the brother is working at half since time the he also works in a cattle farm, for next month I plan to go two days it stops there and to impart some studies.

Fernando works in San Antonio Havana, where he has baptized 4 people and 10 brothers congregate, it is a young congregation, and they are working in the restoration of two brothers the brother he says that he has faith and disposition to continue ahead.

Michel preaches in Tapaste Havana, they congregate on the 12 brothers and in this month a person baptized, and he is studying in these moments with two more possible baptisms, there I was one day imparting the same conference that I gave in Tacajo on you Mature and Spiritual Growth that day some 16 people congregated and we had a baptism.

Fernando San Antonio Havana, he has baptized 5 people and in these moments this extending to work to a field area where nobody visit, he is studying with three people, his wife is also making an excellent work with the children of the community, and through them they can arrive to her parents, I hope the work there extends and continue growing.

Jesus in Alquizar Havana, Jesus has not had baptisms, and the Church has diminished in members for several reasons the first one it is that Jesus has problems of health, the second are that Jesus discovered that the sister where they met as Church the money of the offerings he had been stealing, this brought a big conflict and now instead of meeting in the city they

1/4/2011

meet in a small house in the field outside of the city, there is a small community and there he is working now.

Aldai in San José, Havana, baptism three people and it continues working with 4 people more than they are Witness Jehovah, he told me that it is increasing the visits to the brothers, studying other days of the week with them and that he has seen the results, it visits the needful of the community and of the Church.

Orlando continues in La Sierra, the one is the carpenter that works in Puerto, he also congregates with its family in Canasí because the service gives it in the mornings, he has baptized 2 people and it continues studying with a marriage, in spite of its work as carpenter takes time to work in the Work and to assist to its Church, he gives studies regularly in the week and visit the congregation.

Rubén in Guanabacoa Havana, he has baptized 6 brothers and he works with one in these moments, he works in the outskirts of the city and he has been successful, he has a lot of experience in the evangelization he is a man of more than 50 years he lives with his parents and it is not married, that it is one of the problems that see in the future in this congregation, but let us trust in that there are not problems because until the moment he has been working well, Paul and I commented that it worried us that he had never married but he has given fruits.

Edisney is working there in san Juan two brothers they have died, and in these moments many brothers don't congregate, San Juan has always been a place difficult to work, a single brother has baptized and he works with three in these moments, he is giving different studies in the week but most of the brothers of there they surpass the 70 years, the brother should work with new people and the youth practically doesn't want to know anything about God, here the things are had very difficult.

I'm although loaded with a lot of work, I continue imparting studies three times per week, and once in Puerto, we are congregating about 65 brothers that it is the average of attendance, and baptized to 5 new people and study with a marriage in these moments, I am also visiting once a month a near prison to Canasí and I have had 7 baptisms.

Ok brother this it is the report of work of these two months for February I send you the other work report, greet to the Churches that help us economically so that this work continues ahead.

Here had arrived the quite cold winter, and feeling the loss of 68 people in an air accident in the County of Santis Spirit. Our country crossing again for an evident crisis, and will extend next year, more than half million of unemployed, so we return to a new period of the years 90.

God has mercy of us, although we know that there are others that suffer much more as it is the case of Haiti.

Ok brother that God always blesses you and a thousand thank you for your help, greetings to your wife and mercy in the faith.

Always in Christ

Rouver.

PD. Please tell me if you know something of Paul's family, send their sincere greetings; I need to know if they have some mail where I can write them.
